# about us

RTB Company is a Syrian company founded in Syria in 1999 then relocated to Dubai in 2011. The company specializes in system integration and providing solutions in security systems and services as well as a wide range of ELV & Networking solutions. We are a team of highly motivated and deeply skilled engineers that commit to provide our customers with more than just security systems and technology, we strive to deliver them solutions that address their long-term business goals and needs.

Whether your needs are for security systems, ELV systems or Networking, RTB Company is the one destination to remember for all your needs.

Our business goal is to develop creative, cost-effective solutions, from the design phase through installation, and provide maintenance and support thereafter. We take a team approach with our customers to help them identify possible solutions, evaluate those for effectiveness and appropriateness to the problem, and then implement the most favorable alternatives. Furthermore, RTB Company management and staff are committed to ongoing excellence in customer service.

We believe that with all the capabilities, expertise and high commitment from us, RTB Company will exceed the expectations of their customers.

RTB Company is composed of three divisions, mentioned below:

1. Security Division
2. ELV Systems Division
3. Networking Division
